

“What God’s Judgment Means to Us”

Revelation 2:12-17

Intro: Many today say that God’s judgment is outdated. We relate to the Father through Jesus Christ, so love is the only important thing to know about God. Jesus wants us to know that there is more to God than his love.

I. Jesus is a help because He is _____ (12)

- He will take care of _____
 - But he also _____
- His position helps us _____

As judge, Jesus releases us from _____ others,
and reminds us to _____ ourselves.

II. God’s judgment helps us _____ (13)

- We can hear “ _____ ” (Mt. 25:21)
- We know it is _____ (Romans 8:18)

A faithful judge encourages us to be _____

III. God’s judgment helps us _____ (14-16)

- His word _____ our faults (James 1:25)
 - In _____
 - In _____
- We want to be on _____ (16)

That God stands in judgment should encourage us to
stay _____ with Him.

“Godly stick-To-It-Tiveness”

I Timothy 6:11-

Intro: I know, stick-to-it-tiveness is not a word. I heard a pastor use it when I was growing up as a substitute for perseverance, and it stuck with me. It may not be a word, but it is what God wants us to do in our Christian walk.

I. The godly servant sticks with the _____ (11)

- What God has commanded:
 - Righteousness – Living by the _____
 - _____ - Trusting God
 - Love, Patience, Meekness, Godliness

II. The godly servant sticks with the _____ (12-13)

- Reaches for _____ Phil 3:14
- Maintains his _____

III. The godly servant serves until _____

- He alone is _____

IV. The godly servant _____ others

- Those who are in _____ (17-19)
- Those who are doing _____ (21)

We all can use the encouragement to fight the good fight of
faith. We have no excuse for giving up or giving in before
God.

Revelation

Intro:

- I. Judge, sinners, pardons, grow, judging, judge
- II. Stand firm, well done, worthwhile, faithful
- III. Change, shows, example, doctrine, God's side, right

Conclusion:

I Timothy

Intro:

- I. Good, rules, faith,
- II. Fight, eternal life, profession,
- III. Jesus appears, worthy
- IV. Encourages, error, good

Conclusion:
